About me

I am Dedicated and motivated junior full stack developer, recently graduated from Gondar University, seeking a challenging position to contribute my skills and knowledge in web and mobile application development. Passionate about delivering innovative solutions, collaborating in team environments, and continuously learning and growing in the field

Project

- UoG ICT Helpdesk System
  - Developed a mobile app helpdesk system using Flutter and Django Rest Framework
  - Managed user requests, ticket tracking, and real time chat with the IT department
  - build AI model that used to assist quick fix for our user
- UoG T_lounge café management system
  - Designed a web base system using Html and Css as front end and php for back end
  - User online food delivering system
- Sheger Park Website
  - Developed a responsive and user-friendly website for Sheger Park using React.js, HTML, CSS, and JavaScript
  - Incorporated interactive features and provided relevant information to park visitors
- Uog Dormitory system
  - Assign dormitory rooms to students based on their preferences and availability.
  - Intuitive design for easy navigation and accessibility for both administrators and students.
